Great Preparations in Progress for Governor Aycock's Inaguration on Thursday-Bill to Appropriate \$25,000 For Schools.

(Special Dispatch to The Times.)

RAHÆJGH, N. C., Jan, II.—The Senate to-day passed a bill increasing the Governor's salary to four thousand dollars a year. It went to the House and was referred to the special committee, to be reported back to-morrow. There is a strong sentiment in the House to make the salary five thousand dollars, and it is believed should an addition be made, it would be concurred in by the Senate. The Republican members say they made a hard fight against the increase of salary, in the face of Republican Governor Russell's urgent recommendation of such increase in his recent thessage to the General Assembly.

The other thought which Dr. Smith dwelt upon was that, with decreasing numbers, the duty and privileges of good comradeship increase. He spoke of the good results of the camp and its work, and exhorted the members, as one and another fell from the ranks, to

## Why a Cold Kills

At this season of the year coughs and colds are prevalent because of a lowered vitality. The cold does not yield and too often pneumonia supervenes. "Even then," says a high authority on this disease, "pneumonia does not ordinarily prove fatal except in the case of very old or very young people. The danger arises when it is complicated by heart or kidney disease." This is the secret of the ravages of pneumonia. If the body be strong and the blood pure an ordinary cold is immediately thrown off, but when the bodily vigor is weakened by excessive work, worry, or grief and the blood is vitiated by acid [which the kidneys ought to and will remove when healthy,] the dread pneumonia too often claims its victim. If the blood be kept pure by the use of that great kidney specific, Warner's Safe Cure, a vigorous body will follow, and coughs, colds, and attendant discomforts of the winter months be wholly prevented.

September 3, 1900.

Warner's Safe Cure Co.:

Gentlemen.—If I was the "chief" I would order every officer to keep a bottle of Warner's Safe Cure on hand, and there would be but a few to "lay off" on account of sickness.

Being exposed to all kinds of weather, excessive heat, and sudden frost, or rain, it takes an iron constitution to stand it.

I advocate Warner's Safe Cure as it keeps the kidneys in good condition, which means that all poison and disease is quickly carried off from the system, thus maintaining good health.

It cures you when sick and keeps you in good health if you take a dose now and then.

I advise every man who has to be out of doors most of the time in all kinds of weather to keep Warner's Safe Cure on hand all the time.

Yours truly.
